Reading

Part I. Read this article and choose the correct title to each text. There is one title you do not need.

- A. Seasons**
- B. William Shakespeare**
- C. Leisure time and hobby**
- D. Enjoy your meal**
- E. Books**
- F. Mood**

1. Many men, many minds. All people are different and so they prefer spending their free time in different ways. Some of them go to the parks, forests, to the country and enjoy the beauty of nature. Others like to stay at home watching TV or reading books. There are people who are fond of cinema and theatres, so they try to go there as often as possible.
2. It is not a secret that our meals influence much on our mood. Also, it is very important for our health. Every single person should eat proper kinds of food - dairy products, meats, fruit and vegetables, fats and sugars, cereals and grains. Dairy products provide us with calcium, meat provides our bodies with protein, iron, zinc. Eating fruit and vegetables helps to keep us healthy too because they give us fibre, vitamins and minerals.

3. Winter, spring, summer and autumn are the seasons of the year. December, January and February are winter months. The weather is cold usually it snows. The days are short and the nights are long. The rivers and lakes freeze and we can go skating and skiing. March, April and May are spring months. It is very nice season. The weather is fine it is warm. There are many green trees in the streets in the parks and in the yards. Some time it rains but usually the sun shines brightly.
4. He is the greatest of all playwrights and poets of all times. Not much is known of his life. He was probably the son of a businessman and was born in 1564 in Stradford-upon-Avon. He probably attended the local grammar school and got a classical education. In 1582, he married Anne Elathaway and had three children. Little is known of his life before 1592, when he appeared as a playwright in London. Soon he became an actor playing supporting roles like the ghost in "Hamlet". In 1599, he became a part owner of the Globe Theatre in London.
5. Contemporary life is impossible without reading. The influence of literature on people's mind is great. Regular reading enriches your knowledge of the world and helps to form your entire personality. If a book appeals to you, it arouses lots of feelings and emotions in your heart. If you take to reading, the world of other people's ideas and problems becomes familiar to you. The process of reading demands lots of thinking on the part of the reader because reading exists not only for entertainment.

Part 2. Read the text and mark the sentences below True or False.

Monsters of the sea?

People have always been afraid of sharks. Films like "Jaws" have shown them as monsters. But now these animals are in danger, like many others.

In recent years, shark meat has become a popular food in America. Too much fishing has begun to reduce the numbers of some kinds of shark. Some people say this is a good thing. Sharks kill about twenty-five people a year near the world's beaches. Are we going to help sharks, or are they going to become extinct?

It's hard to solve the sharks' "image" problem and change people's minds about them. Sharks are hunters and so they naturally kill. But actually, elephants kill more people than sharks every year – and every-one likes elephants.

Sharks are very important for the world's oceans. They eat unhealthy fish and keep the numbers of different kinds of sea animals in balance. Now scientists are trying to find way to protect these animals. They have been in the oceans for 350 million years. Perhaps they can survive a little longer.

1. Films have shown sharks as monsters.
2. Shark meat has become a popular food only in Canada.
3. The number of some kinds of shark has reduced because of much fishing.
4. Elephants kill less people than sharks, so people like them.
5. Sharks are very important for the world's oceans because they kill unhealthy fish.
